## BALKAN RUMORS

No Invasion of Troops and Ministers Are Not Recalled.

FINANCIAL CENTRES HOPEFUL

Plain It Is Desire of This Country's Market to Advance.

New York, October 5 .- To-day's news failed to confirm the alarming rumors of the day before regarding the Balkan difficulty which were current Both on this side and in London. There was no invasion of Turkish territory by Bulgarian or Servian troops and no recall of ministers. It

territory by Bulgarian or Servian troops and no recall of ministers. It may perhaps he realized by newspaper readers sooner or later that there is a certain news agency in Constantinople famous for its sending of sensational and fake dispatches.

At all events, the disposition in financial centres is to take a more hopeful view of the Balkan trouble, and the result was a rise in prices in all directions. Here the feature of business was not only the recovery of stocks having international markets, but in other shares, though entirely of the standard order, which are all sielt in only in this country. Prominent among these was Lehigh Vailey and the specific reason for the advance here was presumably the disbursal of knowledge of their large earnings which they are now making. There was conspicuous strength in Consolidated Gas, St. Paul Common and many of the leading issues, and the favorable impression made by this was not at all diminished by the fact that conservative people looked askance upon the rise of such stock as California Patraleum which bursal of knowledge of their large earnings which they are now making.

There was conspicuous strength in Consolidated Gas, St. Paul Common and many of the leading issues, and the favorable impression made by this was not at all diminished by the fact that conservative people looked ask-ance upon the rise of such stock as California Petroleum, which was introduced to dealings on the exchange to-day for the first time. The Great Northern reported a net increase of \$1.00 to \$1.

In the iron and steel trade the price of the basic commodity, pig iron continues its advance. No attention is being paid to politics and general confidence in the soundness of the present business development is unmissivably growing. The money situation has become easier both as regards call money and time money rates, and there is at least a temporary lull in the movement of money rates, and there is at least a temporary lull in the movement of money rates, and there is at least a temporary lull in the movement of money rates to the west. From now on the cotton crop moving may be expected to increase and this will call for some financial assistance, but the banks in the south aspear to be particularly well fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable deep the fortified with fonds at the present time, and their seasonable definition to contain the fortified with f

money will probably be less than they were last year.

Meantime it appears from the government reports of the condition of the cotton crop, which almost invariably suffers a good deal of deterioration during the period from August 25 to September 25, this year suffered less deterioration than it has in the corresponding periods in the last three years.

three years.

Gesets of the Street.

The business for foreign account to-day indicated that the element of fright had been removed from the transactions of foreign speculators.

There was no hurried rush to action condicting reports from southeastern

conflicting reports from southeastern Europe, but more composure and more orderly dealings. The London market for Americans was fairly strong and the transactions in this market for London account showed a preponderance of sales with steel common the favorite. Undoubtedly the technical position of all the foreign markets has been improved by the week's liquidation. In most of them and overextended long account existed. This has now been reduced and the local market has not so much concern over developments in southeastern Europe, whatever they may be. conflicting reports from south

BOOKING IN BALEIGH.

Building Activities in the Capital City of the Old North State.

Fred A. Olde, accretary of the Chamber of Commerce of Raieigh, reports eathusiastically on conditions in the capital city of North Carolina. He says:

"The beginning of what is really autumn in this latitude is marked by development at Raieigh which is used only gratifying to the residents, but which is the admiration of the people of all the State. An unusually large number of people from the North and West are adding themselves to the population of Raieigh, and these are agreed that no place the size of this in all the territory east of the Mississippi is growing so rapidly. As a matter of fact, dwelling-houses cannot be provided fast enough to meet the requirements, though at this date III efficiency are under construction, the greater part of them costing over \$4.000. All types of business structures are in course of erection, and no street is without its signs of work. At ever 30 points work is going on, including buildings, railways, streets and sidewalks, and workmen have come here frem all parts of the country, and still more are needed."

ing-neglected stock of common and me-ium old wrappers and fillers are beginning to be inquired for, and some few sales are sported.

Company (Inc.), makes the formular specifies tobacco sold on the Lynchburg maribi:

Sold week ending September 27, 28,400 pounds; sold week ending October 4, 20,000 pounds; sold from September 1 to October 4, 1911, 181,500 pounds.

Sold from September 1 to October 6, 1911, 181,500 pounds.

Sold from September 1 to October 6, 1911, 181,500 pounds.

Sold from September 1 to October 6, 1912, 181,500 pounds.

This being Intergrate Fair week, with both buyer and seller deeply intercated in the fair, caused sales to be very light.

The offerings were mostly primings, with prices unchanged, ranging from 11 to 15,00 according to quality.

South Boston, Va., October 5.—Tobacce is selling high on this market, and every indication points to a continuation of the same throughout the season. The average during the past week was about 14 cents, and around 55,800 were paid out to the planters on Tossday alone. The prices on bright tebacos were higher than ever known, and some wrappers hold for \$1. In some sections cutting and curing in completed.

Industrial Screep from After.

Woolen sweaters are in demand in China. The Tarmanian applie yield this year is 1,26,600 bushels.

Seven electric motor trucks will be purchased by the Manila poet-office.

The Canadian Pacific Railway has introduced ell-burning locomotives.

White seawed from the Kentish coast is used by Lendon milliners for trimming hats. Twenty million pounds of butter were sent out of European Russia in the first three months of 1912. It was valued at 34,550,500.

Handsome profits are being realized by the whaling industry, which has recently apperienced a revival.

At Aden, Arabia, the water is pumped from the sea, condensed and sold at 73 cents for 100 gallons. All food is imported. To flops worth \$1,900,600 imported into Great Britain in the first six months of 1912, \$2,290,600 imported.

A colony of Russian Jews is to be established in Florida, presumably by the Rothschilds. A. Brill, who is said to represent them, is looking for a location suitable for Jewish farmers from Russia.

## Your Money

In the Savings Department of the MANCHESTER NATIONAL RANK will carn you interest at the rate of 3 per cent a year.

Carried in your pocket itale idle money doing nobody any good, and more than likely doing you harm if expended foolishly.

Start a savinge account-at-cace One dollar will do it, and you get the same courteous treatment here whether your account be large or small.
